**[BUSINESS NAME] IS USING WGES CLEANSTEPS® WINDPOWER TO POWER THEIR BUSINESS**

**[Corporate office] joins the growing sustainable business community, choosing emission-free wind energy as the next step in environmental stewardship**

**[City, State]** – [Business Name] is pleased to announce that they have committed to purchasing [percentage]% wind energy credits to power their business, reducing the carbon footprint of the company and helping to cultivate a healthier community. This means that their customers can rest easy knowing that by supporting [Business Name], they are also supporting clean energy. Wind energy is making a big difference in America. The wind energy that [Business Name] uses fosters the development of new wind energy and protects air quality.

[Include a paragraph about why your business chose to use wind power, written in the 3rd person].

In 2011, thousands of homes and hundreds of businesses purchased CleanSteps® WindPower from Washington Gas Energy Services and helped to prevent the harmful effects of traditional energy supplies.

The effects of their commitment are immense and are a part of [Business Name]'s mission to foster a cleaner environment. By using wind energy, we are helping the environment and also keeping the air clean, preventing the need for new, polluting fossil-fuel power plants to meet growing energy needs.

**About [Business Name]**

[Here you can fill in a brief (100-word) description of your company that sums up all of your services and products for those who are interested, and provide links to your Web site.]
